

Summarise and manage your leases in minutes  
Simply designed to save you time and money.

## Our solution

### Accurate

Reduce human error and incorrect data as each field is auto-extracted then tagged for verification.

### Fast

Improve your work productivity; Accurait swiftly and effortlessly organises your lease contract data.

### Reliable

Control exactly how each contract is digitally processed and standardised to your specific needs.

### Exportable

Your complete lease database exports in handy time-saving formats; CSV, Excel, open API & more...

### Track changes

Manage all modifications to lease source data for superior document auditing and quality control.

### Source locator

Find, tag and share specific lease clauses quickly and easily via Accurait's intra-link technology.

### Integrated technologies

Handwriting recognition, advanced OCR, error detection and meta data – all in one clever platform.

### Machine learning

Accurait's AI is constantly improving performance over time to deliver you greater efficiencies and results.

Designed specifically for these industries:

Commercial Property

Equipment | (coming soon)

Vehicle | (coming soon)

#### API Integration

Accurait's open API saves you time and money by linking your commercial lease contract data with recognised industry systems, such as Lease Manager.

#### Standardise your documents

With AI accuracy, reliability and speed, you'll turn static PDFs into a standardised, centralised and searchable lease repository, for prompt recall of clauses and other data.

#### Are you IFRS16 ready?

Accurait helps extract and digitalise key data from lease contracts, ensuring you meet this new global accounting standard.

## Why choose us?

For over a decade, Accurait has built revolutionary Australian lease management technologies. Independent in our innovations, we create powerful solutions that enhance your productivity. Plus, save you time and money.

Our products are trusted by retailers across Australia. Combining accurate data with robust analytics, our clients experience unparalleled market insights, critical decision support and, of course, improved efficiencies.

We're partnering with CSIRO's Data61, Australia's data innovation network, to enhance our technology with the latest machine learning excellence from the nation's leading data scientists.

Together, we're advancing commercial lease management through the precision and speed of Accurait
